TimeControl is already integrated

➢ The architecture of TimeControl is designed to integrate with Project, Project Server and Project Online. You can optionally install the TimeControl interface directly into a SharePoint worksite and your Project Web Access.

➢ TimeControl integrates with both Microsoft Project Standard and Professional on the desktop.

Integration Features

➤ Generate a project in TimeControl automatically with the OnPublish event in Project Server

➤ Move tasks and assignments from Project Server to TimeControl on demand, or automatically on a schedule or OnPublish

➤ TimeControl supports the movement of data from Enterprise fields and user defined fields

Integration Features

➢ TimeControl can display only assignments or be more open to show more tasks

➢ Timesheet data is approved in TimeControl both by Supervisors and Project Managers

➢ TimeControl moves data back to Project / Project Server / Project Online on demand or on a schedule
